30 February 1956

MEMORANDUM TO: SECURITY OFFICER, PROJECT AQUATONE
FROM : COMMUNICATIONS OFFICER, Project AQUATONE
SUBJECT : Request for Technical Services Staff Check Out

1. It is requested that the necessary action be taken as soon as possible to provide a Technical Service Staff counter penetration check out of the Project Operations Center Signal Center, located in Room 548, 1717 H Street, N. W., and the Weather Central Signal Center, located [redacted]

2. These installations will be used to encipher, decipher and process extremely sensitive messages concerning Project AQUATONE. Furthermore, this office will install certain cryptographic devices which can be penetrated through radio surveillance.

3. Because these areas have been recently subjected to extensive renovations and modifications by non-cleared, non-government personnel, it is felt that a counter penetration check out would be extremely beneficial in assuring that no surveillance devices have been installed during the renovation.

4. It is suggested that you consult with [redacted] Project Weather Officer, for arrangements to check out the installation in
